

BUSAM GREESHMA

greeshmabusam@gmail.com | (+91) 9966123377 |

SUMMARY

Motivated and detail-oriented Computer Science and Engineering (Data Science) student with strong academic foundation and passion for problem-solving, software development, and data-driven innovation. Proficient in programming, web and app development. Strong leadership, teamwork, and communication skills with proven ability to manage projects and deliver results. Seeking a challenging role to leverage technical expertise in Software Engineering.

EDUCATION

- Bachelor of Technology in Computer Science and Engineering (Data Science) | CMR ENGINEERING COLLEGE | CGPA: 9.19 | (2023-Present)
- Telangana State Board of Intermediate Education (TSBIE) | Narayana Junior College | 97.6% | (2023)
- SSC | BHASHYAM HIGH SCHOOL | 10 CGPA | (2021)

SKILL SET

Technical Skills:

- **Programming Languages:** C++, Python, C, Java
- **Coursework:** DSA, OS, OOPS, DBMS
- **Data Structures and Algorithms:** C++ (Trained by Smart Interviews)
- **Web development:** HTML, CSS, JavaScript, React.js, Node.js, Express.js
- **App development:** Kotlin, Jetpack Compose, Material3
- **Database:** MySQL, MongoDB
- **IDE:** Visual Studio Code

Soft Skills: Communication | Teamwork | Critical Thinking | Enthusiastic Learner

PROJECTS

- **Food Delivery App | React.js, Tailwind CSS, GitHub**-Developed a responsive food delivery web application with real-time search functionality using controlled components and React Hooks. Built reusable UI components with Tailwind CSS following a mobile-first design approach. Maintained version control using Git and hosted source code on GitHub. [↗](#)
- **GitHub Profile Finder**- Created a dynamic GitHub Profile Viewer using HTML, CSS, and JavaScript, integrating GitHub REST API to display real-time user data including profile details, followers, and repositories. [↗](#)
- **Responsive E-commerce Flower Shop**-Developed a responsive flower shop website using HTML and CSS with modern UI design, mobile responsiveness, and interactive product sections. [↗](#)
- **Unscramble app**-Developed an Android word unscramble game using Kotlin and Android Architecture Components with StateFlow to practice app logic and state handling. [↗](#)
- **Beach Weather Map**- Developed a real-time beach weather visualization app using HTML, CSS, JavaScript, Leaflet.js, Node.js, Express.js, and Tomorrow.io API, to map conditions and classify recreational suitability across Indian beaches. [↗](#)
- **Enhancing Respiratory Disease Diagnosis with Graph Convolutional Networks**-Built an AI model for respiratory disease detection using CNN and GCN-based architectures on lung sound spectrograms.

Tech Stack: Python, CNN, GCN, Transformers, Librosa, Scikit-learn. [↗](#)

INTERNSHIPS

- **IBM Skills Build and CSRBOX Micro-Internship on Data Science**
Completed intensive program in Data Science, enhancing skills in data analysis, machine learning, and visualization with IBM Skills Build and CSRBOX. [↗](#)

ACHIEVEMENTS & CERTIFICATIONS [↗](#)

- Achieved Smart Coder recognition (Smart Interviews) [↗](#)
- Earned Data Analysis with Python and SQL certification. [↗](#)
- Certificate of Appreciation- Tech Tournament, CONVERGENCE 2K25 (VNRVJIET) [↗](#)
- Awarded for outstanding performance in CanHack2026 Hackathon [↗](#)
- Successfully earned Salesforce Certification, gaining hands-on knowledge of CRM and Salesforce platform fundamentals. [↗](#)
- Participated in Web Development Competition organized by Google Developer Groups at Methodist College of Engineering and Technology (March 2026). [↗](#)
- Google Cloud Career Launchpad – Data Analytics Track, Google Cloud. Successfully completed all courses and hands-on labs in data analytics | March 2026 [↗](#)
